

Julie is an awesome 14-year-old Freshman at Hononegah High in Rockton Illinois!

Julie recently earned her Junior Olympic Purple Star Pin @ 20 Meters with no adjustments made for her Autism!

Archery Programs Promote Inclusion

Julie is a freshman now, but already day dreaming about College! Julie hopes to start a High School Archery Club. Archery is the only school sport where Julie can compete with her mainstream peers, including the best school athletes, for college scholarship money to schools like Southeastern Illinois University! Archery empowers women, non-traditional athletes, and students with disabilities. Help us bring Archery to your School!

2nd Annual Julies Archers for
Autism & Rock River Music Fest

Our mission today:

Our goal at Hononegah Archery today is to share our passion for an Olympic Sport that doesn't discriminate against color, weight, height, popularity, or disability!

Our Julie's Archers for Autism Tournament today is designed to introduce the public to the NASP, National Archery in the Schools Program (Bullseye shooting like the Olympics) and S3DA, Scholastic 3D Archery Teams (they shoot foam animal targets.) Both of these teams have dozens of active programs in Illinois and Wisconsin to compete against! Hononegah Archery can license your School Teachers Grades 4 – 12 for these Programs and have you competing by January 2020!

Thank you to all of our 3D Target Sponsors!
